EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. The following changes to the drawings have been required by the examiner: Figures 1-5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures.

REASONS FOR ALLOWANCE

3. Claims 1-3 are allowed.
4. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a shutter to a control valve of a range burner control having two air outlet ports with one for the larger flame and the other for the smaller flame having an air pocket provided in the recess to the peripheral of the shutter and wherein the oil groove is deeper than the air pocket and is at an ascending inclination to protrude the circumference of the air pocket, in combination with the air outlet port for the smaller flame provided at a higher location in the air pocket at a distance from the oil groove.
